

EDUCATION

University of Virginia, Charlottesville, Virginia

M.S., Electrical and Computer Engineering, May 2015 (expected)

- Thesis Topic: *High-Frequency On-Probe Noise Measurement*
- Advisor: **Professor Robert M. Weikle**
- Area of Study: Microwave and millimeter-wave Engineering

B.S., Electrical and Computer Engineering, May 2014

- Double major in **Computer Science**
- Minor in **Applied Mathematics**
- Specialization in RF engineering, applied electrophysics, and VLSI design

RESEARCH EXPERIENCE

University of Virginia, Charlottesville, VA

Graduate Research

Summer 2014 - Present

- Worked with Prof. Robert Weikle on a scalable high-frequency on-probe noise measurement circuit.

Undergraduate Research

Summer 2013 - Summer 2014

- Worked with Prof. Scott Barker on a high impedance substrate for an antenna device as part of the North Carolina State University ASSIST program.

TEACHING EXPERIENCE

University of Virginia, Charlottesville, VA

Teaching Assistant

January to May 2014

- CS 2150: Program and Data Representation
 - Responsible for grading exams, holding recitations, and instructing a laboratory section.
 - Contributed regularly to course material at github.com/aaronbloomfield/pdr.
- CS 4810: Computer Graphics
 - Responsible for grading assignments, holding recitations, and debugging student's programs written in C, C++, C#, D, Java, and Python.
- ECE 5260: Microwave Engineering I
 - Responsible for grading assignments and holding recitations.
- ECE 4265/6265: Microwave Engineering Laboratory
 - Responsible for instruction and supervision of laboratory and grading laboratory reports. Graduate and senior undergraduate students used **Microwave Office** for design and simulation, and vector network analyzers, spectrum analyzers, and signal generators for measuring.

Athletic Tutor

September 2012 to December 2013

- Computer Science – CS 1110: Introduction to Programming (Java), CS 2110: Software Development Methods (Java), CS 2102: Discrete Mathematics, ECE/CS 2330: Digital Logic Design
- Applied Mathematics – APMA 1090: Calculus I, APMA 1110: Calculus II, APMA 2120: Calculus III, APMA 2130: Differential Equations, APMA 3100: Probability

PROFESSIONAL EXPERIENCE	<p>Axios, Inc., Sterling, VA</p> <p><i>Software Engineer</i> July 2014 to Present</p> <ul style="list-style-type: none"> - Taught a lecture on functional programming to the interns and other engineers. <p>WillowTree Apps, Charlottesville, VA</p> <p><i>Web Developer Intern</i> December 2013 to January 2014</p> <ul style="list-style-type: none"> - Rewrote an open source library for Backbone.js and Marionette.js. - Built a Mixin pattern into Backbone.js to simplify shared logic. - Built several proof-of-concept frond-end features that were implemented into a client application. - Built IRC bots that aided with internal task automation (included sentiment analyzer). <p>Scitor Corporation, Chantilly, Virginia</p> <p><i>Program Manager Intern</i> May 2013 to August 2013</p> <ul style="list-style-type: none"> - Developed risk reduction package for multi-million dollar next-generation memory unit for a National Reconnaissance Office satellite. - Built an iPad application similar to Google Earth.
PROFESSIONAL MEMBERSHIPS	<p>Institute for Electrical and Electronics Engineers (IEEE), Student Member, 2013–present</p> <ul style="list-style-type: none"> • IEEE Communications Society (2013–present) • IEEE Microwave Theory and Techniques Society (2013–present) <p>Association for Computational Machinery (ACM), Student Member, 2013–present</p> <ul style="list-style-type: none"> • North American Section (2013–present)
HARDWARE AND SOFTWARE SKILLS	<p>Analog and Digital Electronics:</p> <ul style="list-style-type: none"> • Bipolar and FET implementations of continuous and switched amplifiers, modulators, converters, and filters • Computer-Aided Design Tools: Cadence, NI Multisim, SPICE, AWR Microwave Office, ANSYS High Frequency Structural Simulation <p>Test and Measurement:</p> <ul style="list-style-type: none"> • National Instruments Vector Network Analyzer, Hewlett-Packard Signal Generator, Hewlett-Packard Spectrum Analyzer <p>Programming Languages:</p> <ul style="list-style-type: none"> • C, C++, Java, JavaScript, Python, OCaml, Ruby <p>Numerical Analysis:</p> <ul style="list-style-type: none"> • MATLAB, R, Mathematica, Numpy, Scipy, Minitab
AWARDS	<p>University of Virginia</p> <ul style="list-style-type: none"> • IEEE Microwave Theory and Techniques Society Undergraduate Scholarship, Fall 2014 • Dean’s List, Fall 2010, Fall 2014, Spring 2014
SECURITY CLEARANCE	<p>Top Secret/SCI with polygraph (SSBI: 5/2/13, CI Poly: 7/29/13)</p>
